

Express your unique side! Making your own wine has never been so easy, fun and stress free!

All of our wine recipes are crafted with 100% pure grape juice and only the finest ingredients. Contact us today to reserve your spot!

Coronavirus Update:

Creative Grapes will take all safety precautions to ensure staff and customers are safe. Health and safety protocols will be followed, with additional sanitation measures implemented. All high touch surfaces, including counters, debit machines, door handles, all bottling equipment, washing stations and corks will be sanitized between all customers. Each bottling station will provide hand sanitizer. We plan to stagger bottlers to help maintain a safe physical distance between each other. Please feel free to contact us if you have any further questions regarding our safety protocols.

About

Making your own wine is a fun, easy and simple process. The staff at Creative Grapes want to make your experience unique and stress free. All of our wine kits yield 28-30 (750mL) bottles of wine. The wines produced on site are made with 100% pure grape juice chosen by you to create exactly what you are looking for. Most of our kits take 4 weeks from start to finish. The production of wine includes the juice/juices, all other required ingredients, service charges, corks and taxes.

Customers can bring in their own bottles or we can provide them for you at a nominal fee. A commercial water filter has been installed for all our water sources. All wine equipment is winery grade and professional. The filter we use contains 3 filtering pads to ensure we are clarifying your wine to give it a brilliant finish with a wholesome clean taste. The Electric Fill Jet Bottle Filler has a cascading flow system that can fill a 750mL bottle in 14 seconds. It has a self-priming pump, and a quick load mechanism to make your bottling experience quick and easy.
